SUMMARY

Junior Quality Assurance Engineer with hands-on experience in Manual, Functional, Sanity, Integration, and Regression Testing, API Testing, Bug Reporting, Test Case Design, and basic Automation Testing. Skilled in validating web and mobile applications using structured testing methodologies, with growing exposure to performance and security testing concepts, SQL-based data validation, basic web technologies (HTML, CSS, JavaScript), and CI/CD-integrated test workflows. Strong understanding of SDLC, STLC, and Agile practices, including sprint planning, stand-ups, and retrospectives, with a track record of delivering reliable, high-quality software through effective testing and continuous learning.

EXPERIENCE

King Soft Tech Pvt. Ltd.

Junior Quality Assurance Engineer *June 2026 - Present*

- Create and execute detailed test cases and test scenarios for web and mobile applications.
- Perform Manual, Smoke, Sanity, Functional, Integration, and Regression Testing across sprint releases.
- Conduct API Testing using Postman, validating status codes, requests, and responses.
- Report and track defects in Jira with clear steps to reproduce, verifying fixes through re-testing and tracking issues through to resolution.
- Collaborate with Developers, UI/UX Designers, and Product Managers to validate features against business requirements.
- Participate in Sprint Planning, Daily Stand-ups, and Retrospectives; support automation by maintaining test scripts.
- Assist in UAT documentation and prepare test execution and defect summary reports; apply basic performance and security testing concepts where required.
- Use Agentic AI tools to write test cases, assist with automation scripting, and analyze requirement documents.

TechAxis Pvt. Ltd.

Quality Assurance Intern *February 2026 - June 2026*

- Designed and executed test cases across multiple projects, covering Functional, Sanity, Integration, and UI Testing.
- Conducted Cross-browser Testing and API validation using Postman.
- Logged and managed defects using ClickUp; supported Requirement Analysis and RTM creation.
- Learned and assisted with Automation Testing using Selenium and Playwright.
- Supported Regression Testing ahead of releases in collaboration with developers.

EDUCATION

Bachelor in Information Management (BIM) *2021 - 2026*
Tribhuvan University

School Leaving Certificate (S.L.C.) (+2) *2019 - 2021*
Khwopa Secondary School

Secondary Education Examination (S.E.E.) *2019*
Bal Vikash English Secondary School

SKILLS

- Manual & Functional Testing
- Sanity & Integration Testing
- Test Case & Scenario Design
- API Testing (Postman, REST APIs)
- RestAssured (Basic)
- Selenium WebDriver, TestNG
- Playwright, Cypress (Basic)

- JMeter (Basic Performance Testing)
- SQL / MySQL (Basic Data Validation)
- HTML, CSS, JavaScript (Basic)
- Java, Python (Basic)
- Jira, Postman, ClickUp, Trello (Basic)
- Git, GitHub
- Agentic AI for Test Case Writing, Automation & Requirement Analysis
- CI/CD Integration (Basic)

CERTIFICATIONS

- QA Internship - TechAxis
- API Validation with Postman
- Introduction to Project Management with ClickUp

PROJECTS EXPOSURE

Loyalty Management System (Feriaau) *2026*
Objective:
To ensure software quality by documenting test cases, validating application functionality, and actively contributing to Sprint planning and Kanban workflows to align QA activities with project requirements and development progress.

Description: Performed end-to-end testing of the Loyalty Management System (Feriaau) across both Web and Mobile platforms, covering Manual, API, Regression, and UI Validation, with full defect management in Jira.

Student Learning Platform *2026*
Objective: To validate core functionality and ensure a consistent, bug-free experience across browsers for an education platform.

Description: Performed Functional Testing, API Validation, and Cross-browser Testing, with structured test case preparation and Regression Testing.
